

## Wyoming Food Safety Coalition

*Committed to reducing the risk of foodborne illness in Wyoming*

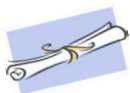

### What WE can do for YOU!

*Local teams of coalition members offer these food safety programs:*

#### Wyoming-Based Trainings

Reflect the current *Wyoming Food Safety Rule*:

- **Wyoming Food Safety Fundamentals**  
For retail and other foodservice personnel. Provides detailed information about and practical tips for reducing the risk of foodborne illness.
- **Wyoming Retail & Foodservice HACCP**  
For managers who already have solid food safety knowledge. Provides information and skills to develop a food safety management plan using HACCP principles.
- **HACCP for small non-meat food processors**  
Step-by-step training for development of a food-safety management plan in small non-meat food processing establishments. Development funded by a USDA grant and carried out through University of Wyoming Department of Family & Consumer Sciences.

#### ServSafe®

Programs of the Educational Foundation of the National Restaurant Association:

- **Managers Certification** – for foodservice workers and supervisors. Includes exam for national certification.
- **Starters (in Spanish)** – basic food safety training for Spanish-speaking food handlers with limited English skills. Taught in a few areas of the state by bilingual educators.
